Mr. Dale Hatfield  
Chief, Office of Engineering and Technology  
Federal Communications Commission  
2000 M Street  
Washington, D.C. 20554

Dear Mr. Hatfield,

On Tuesday, March 30, 1999, Sprint Local Telecommunications Division filed an Initial Service Disruption Report with the Federal Communications Commission Watch Officer. This report concerned a failed inter-office fiber transport facility affecting the Labelle and Moorehaven, Florida areas.

The initial report was filed due to the potential of reaching the FCC notification requirement of 30,000 blocked calls prior to restoral of the fiber facilities.

Subsequent investigation and analysis of the service disruption has shown that the actual level of blocked calls was less than the 30,000 blocked calls reporting threshold. In addition, no other reporting requirements as defined in Part 63.100 of the current FCC rulings were met.

Based on these findings, Sprint Local Telecommunications Division requests that the March 30, 1999 report of Labelle and Moorehaven, Florida be withdrawn.

Sincerely,

A handwritten signature in black ink, appearing to read "Gregory E. Hoffman", written over a horizontal line.
